*Intersectionality and Race*

### **2020 Humanitarian Disarmament Forum**

Online and in New York

17-18 October 2020

The Campaign to Stop Killer Robots and Soka Gakkai International are excited to co-host the next Humanitarian Disarmament Forum over the weekend of 17-18 October 2020.

This is the first Humanitarian Disarmament Forum to be livestreamed. If feasible, the face-to-face Forum will be held in New York on those dates, but it's too soon to say if it will be safe to do so by then given the rapid spread of the Coronavirus (Covid-19) pandemic.

Every Forum has sought to substantively explore a cross-cutting challenge and collectively identify solutions including practical measures. The overarching goal has been to educate and energize activists from non-governmental organizations (NGOs) and global NGO coalitions working to advance humanitarian disarmament and protect civilians from armed violence.

The 2020 Humanitarian Disarmament Forum will focus on diversity—particularly race—and how to be more intersectional in working to advance humanitarian disarmament. Intersectionality is a concept that acknowledges all forms of oppression such as ableism, classism, misogyny, and racism; and examines how these oppressions operate in combination.

The registration process will be announced in due course and we welcome your ideas and suggestions for the agenda, speakers, and activities. There is no fee to participate, but the co-hosts warmly welcome financial support so please get in touch if you can make a contribution.

Please save the date and do not hesitate to contact us for more information,

A handwritten signature in black ink, appearing to read 'A.V.P.J.' with a large flourish at the end.
